Dearest Sharon Chinese Community,

We watched in amazement this morning as the Sharon Chinese community created a beacon of kindness, selflessness, and love that rose out of the Sichuan Gourmet restaurant to light the way to a brighter for children in desperate need. Stretching across the Boston area all the way to China, it will stand and shine even brighter in the coming days as people learn—and we know they will—about your wonderful contribution to help disadvantaged, injured children.

Your exemplary efforts this morning resulted in an amazing \$2460 donation to HandReach! We are deeply moved and humbled by your gift of time, work, food, and money to help HandReach execute its mission to make sure that best practices in pediatric burn and amputee care and rehabilitation are available around the world, where they are needed most.

Thank you. Thank you. Thank you. We know the beacon you so graciously lit this morning for the benefit of the children will bounce back to brighten and warm your life as well.

Very sincerely yours,

Brecken Chinn, Executive Director

Qi McIntosh, China Program Manager

Stephen McIntosh, Treasurer
